Heidi Star - Broadcaster since 1995

Grievance and proposal regarding broadcasting content was brought to the Program Committee in August. Offered to open discussion and dialog. Spoke 2 times to KVMR Board and conversations with Steve Baker without response. Eventually there was a written response.

Diane explained that following extended communication the board backed out because it regarded operations. The board doesn't get involved with operations.

Heidi requested that the KVMR board serve as a "court of appeal" for issues that are unresolved by staff.

Heidi requested that CAB investigate whether KVMR was truthful in it's CPB application referencing participation with local native groups.

Heidi asked Julie to join in a meeting with tribe, Steve and Heidi.

Diane asked if there was clear evidence of libel or slander.

Julie said she and Steve are happy to meet with the tribe without middle people. She mentioned several other meetings that have happened in the past. Five total meetings with tribe and/or Heidi.

Discussion ensued.

Julie explained that there's a difference between the Nisanan and the Chiachum.

Peter requested that Julie send us the "Local Services and Content Report" referenced in Heidi's request to the CAB.

Meeting adjourned at 7:09.
